

## Delco Remy Celebrates 130 Years of Powering Commercial Vehicle Performance and Reliability

- Delco Remy marks 130 years of electrical system innovation across commercial vehicle, off-highway, industrial, and aftermarket applications
- Trusted by OEMs, fleets, distributors, and operators worldwide, in the Americas alone, Delco Remy has delivered over 24 million starters and alternators in the past decade
- PHINIA continues to invest in new starter and alternator technologies to support evolving commercial vehicle markets and lower-emission mobility solutions

**Auburn Hills, Mich. (June 18, 2026)** – PHINIA Inc. (NYSE: PHIN), a diversified, industrial supplier and global leader in the development of fuel systems, electrical systems, and aftermarket solutions, is celebrating 130 years of its Delco Remy® brand. This milestone reflects more than a century of innovation, reliability, and trusted performance across commercial vehicle and industrial markets.

For 130 years, Delco Remy has helped power vehicles and equipment operating in some of the most demanding environments. Today, the brand supports original equipment manufacturers (OEMs), commercial fleets, and aftermarket customers with advanced starter and alternator technologies engineered for durability, efficiency, and uptime.

Over the past decade, in the Americas alone, Delco Remy has supplied over 24 million starters and alternators. Its products support applications ranging from medium- and heavy-duty trucks and buses to agricultural, construction, marine, power generation, and industrial equipment.

“Reaching 130 years is a testament to the strength of the Delco Remy brand, the performance of our products, the loyalty of our customers, and the dedication of our people,” said Mike Coetzee, VP and General Manager, Americas, PHINIA. “Through every major trend in the automotive and commercial vehicle industries, Delco Remy has continued to adapt, innovate, and deliver the dependable electrical systems our customers rely on every day.”

Under PHINIA, Delco Remy holds 172 patents related to starter and alternator technologies, demonstrating its continued commitment to innovation and product leadership.

“Delco Remy has consistently demonstrated its ability to evolve and lead through every major transformation in the commercial vehicle industry, and it will remain a cornerstone of PHINIA’s long-term strategy,” said Coetzee. “Starters and alternators will continue to play a critical role across a wide range of applications for the foreseeable future. Demand for internal combustion engine-powered vehicles remains resilient particularly in heavy-duty and long-haul segments, where electrification still faces significant practical and infrastructure challenges. In response, we are continuing to invest in our portfolio, expand our capabilities, and strategically position Delco Remy to capture growth opportunities in key global markets.”

With manufacturing operations in Brazil and Mexico and a global customer base, Delco Remy is well positioned to support customers for decades to come.

**About PHINIA**

PHINIA is a diversified industrial supplier and global leader in the development of fuel systems, electrical systems, and aftermarket solutions, with a strong portfolio of trusted brands that includes DELPHI®, DELCO REMY® and HARTRIDGE™. With over 100 years of manufacturing expertise and industry relationships, PHINIA has approximately 12,500 talented employees and over 40 locations in 20 countries and is headquartered in Auburn Hills, Michigan, USA.

Our systems and solutions are designed to keep combustion engines operating at peak performance across a variety of applications: medium- and heavy-duty commercial vehicle (on-road vehicles used for commercial transport classified class 4-8, 14,001 pounds or heavier), light commercial vehicle (on-road vehicles used for commercial transport classified as class 1-3, 14,000 pounds or lighter), light passenger vehicle (on-road vehicles used primarily for carrying passengers), and off-highway, industrial, and other (including construction and agricultural machinery, vocational vehicles, marine, industrial applications, power generation, and aerospace and defense).

PHINIA's service solutions include vehicle repair and replacement parts, offering both new and remanufactured products through the original equipment manufacturer dealer network and the independent aftermarket channel.

By delivering high-performance solutions today and investing in advanced technologies to unlock the potential of alternative fuels in contributing to lower carbon mobility, PHINIA is shaping a more efficient and sustainable future.
