

PHINIA to Preview New Aftermarket Parts and Delphi Training Academy at AAPEX 2024

- PHINIA brands will present an assortment of new premium aftermarket parts and solutions, spanning steering & suspension, vehicle electronics, and much more during the 2024 AAPEX conference
- Delphi Training Academy, North America's regional training program, introduces new capabilities
- "Plug-In-Power Charging Tips for PHEVs & EVs" training returns for second year due to high demand

Auburn Hills, Mich. (November 4, 2024) – PHINIA Inc. (NYSE: PHIN), a global leader in premium fuel systems, electrical systems, and aftermarket products, is set to attend the 2024 Automotive Aftermarket Product Expo (AAPEX) at the Venetian Expo in Las Vegas, Nevada from November 5-7 at booth A5027. PHINIA is exhibiting at AAPEX with its market-leading Aftermarket brands DELPHI®, DELCO REMY®, and HARTRIDGE™.

Delphi

Delphi will feature a sneak peek of several new parts set to be announced later in Q4. Delphi anticipates that this upcoming parts announcement will be the largest of the year by far. A selection of new parts on display at AAPEX will include Delphi's new NOx sensors and enhanced steering parts.

Delphi will be featuring parts from each of the brand's lines including fuel management, steering and suspension, vehicle electronics and diesel fuel systems, including Delphi's new premium remanufactured ISX-XPI® injectors. The ISX-XPI® 15L injectors are products produced under the technical expertise of one of the largest OE diesel fuel injection manufacturers in the world.

"On a global scale, Delphi has been elevating its brands throughout the last year, and we're excited to show off what's in store for 2025 and beyond at AAPEX," said Neil Fryer, Vice President and General Manager of PHINIA's global aftermarket business. "Delphi has introduced many new products internationally in the last 12 months, and we're looking forward to continuing that momentum into the upcoming year."

Hartridge

Hartridge, the premier independent OE-authorized test bench manufacturer, will feature two products at AAPEX including the [Sabre CRi Expert](#) and [HK1400 Expert](#). The Sabre CRi Expert is a progression of the Sabre platform, opening up new opportunities for workshops to advance and grow on a platform that is centered on easy use throughout. Meanwhile, the HK1400 Expert is an essential choice for any diesel workshop wanting to increase their Electronic Unit Injector (EUI) and Electronic Unit Pump (EUP) diagnostic capability.

Hartridge has a long pedigree of OE authorizations on test benches. The brand is the partner of choice to develop test and repair solutions in the defense sector, plant, rail, and maritime industries.

Delco Remy

Delco Remy, the trusted commercial vehicle starter and alternator brand from PHINIA, will be showcasing the [150MT™ Heavy Duty Starter](#) at AAPEX 2024. The 150MT boasts a high-performance power pack, supports multiple vehicle power sources, and is equipped with over crank thermal protection and mechanical rigidity—all which give it reliable startability and long-life performance.

Delco Remy starters and alternators from PHINIA are the trusted premium solution of commercial truck and off-road original equipment manufacturers and aftermarket organizations globally.

According to Russ Stebbins, PHINIA's Vice President and General Manager of North America aftermarket, "Delphi, Delco Remy, and Hartridge are consistently being strengthened by our knowledgeable team and through extensive research and development to deliver best-in-class aftermarket products and solutions to the North American market. We're looking forward to showcasing a selection of these new parts and training services at AAPEX this year, giving attendees a taste of what's in store in the year to come."

Training

Delphi will also share a high-level preview of its new Training Academy. The Delphi Training Academy is set to be a comprehensive North American training program comprising instructor-led and self-paced training options. More details to come on the Training Academy in the following months.

In addition to the booth, Delphi will be featuring a training session during AAPEX, hosted by Dave Hobbs, senior technical trainer and curriculum developer, at Joe's Garage. The training session, "Plug-In-Power Charging Tips for PHEVs & EVs," will cover the latest updates on transitions from CCS1 7-pin fast charge plugs to NACS (Tesla) 5-pin plugs including access to the Tesla Supercharger network. Be sure to check out the training on Wednesday, November 6 at 10 AM local time.

For more information about Delphi, Delco Remy, and Hartridge, stop by the PHINIA booth at AAPEX at booth A5027, or visit www.phinia.com.

About PHINIA

PHINIA is an independent, market-leading, premium solutions and components provider, with over 100 years of manufacturing expertise and industry relationships and a strong brand portfolio that includes DELPHI®, DELCO REMY® and HARTRIDGE™. With over 13,000 employees across 44 locations in 20 countries, PHINIA is headquartered in Auburn Hills, Michigan, USA.

Across commercial vehicles and industrial applications (heavy-duty and medium-duty trucks, off-highway construction, marine, aviation, and agricultural), and light vehicles (passenger cars, trucks, vans and sport-utility), we develop fuel systems, electrical systems, and aftermarket solutions designed to keep combustion engines operating at peak performance, while at the same time investing in advanced technologies to unlock the potential of alternative fuels.

By providing what the market needs today to become more efficient and sustainable, while also developing innovative products and solutions to contribute to lower carbon mobility, we are the partner of choice for a diverse array of customers – powering our shared journey toward a cleaner tomorrow.
